LB 933, 934

SENATOR LANDIS: Thank you. Mr. Speaker, the Government Committee has never shied away from controversy. We have never ducked a hot one and 933 came through the Committee; we wrestled with its many provisions, this hydroheaded bill, and we think we have come up with a good piece of legislation. This is the bill, if you have been waiting, that allows the Transportation Services Bureau to write the names of state departments in letters other than two inches high. This is the bill that permits the charging of actual expenses for xeroxing instead of ten cents per word. This is the bill that raises the petty cash fund in the Materiel Division from \$35 to \$100. This is the bill that permits agencies to place in the State Treasury after ten days the funds they receive instead of 30 days. And this is the bill that will have State departments checking the little gold tags on the material in their departments annually instead of biannually. Now, we spent a long time on this one but it's a hot potato and we weren't sure it was consent calendar material but it's out here and I'd urge your serious consideration of this important piece of legislation.

PRESIDENT: Is there discussion on LB 933? If not, are you ready for the question? Question is, the motion is to advance LB 933 from General File. All those in favor vote aye, opposed vote nay.
